DR. HOBENSACK'S

Worm Syrup and Liver Pills.

PROBABLY one reason why Worm Medicines so frequently fail of any *good effect*, is the fact that they contain no qualities except as *Worm Killers*. Consequently in many instances while we mistake the symptoms of disease and doctor for worms, when the cause of disease is not worms, but a *derangement of the system and consequent debility and ill health, no good results follow*, whereas in the use of *Dr. Hobensack's measures, it being an active remedial agent*, as well as worm killer, the patient immediately gets well, though no worms are brought away.

Thus it will be readily seen that it possesses many advantages over other worm medicines, as it is not only sure to kill and bring away the worms, but builds up and restores the patient to general health, besides.

ternative, I mean to marry this lady; if you will treat her with the respect which is due my wife I will now give each of you so many thousand pounds; if you will not, I will cut you off with a shilling"—Such instruments had the desired effect, and she was married the second time. In a few years her second husband died, leaving her a very fine estate in her own right. By the generosity of her two husbands she had been made independently rich, but she had not a single heir, unless her sister had children. Hence the 'London lawyer's letters.

It was ascertained that the sister married one Ellis Cook, and a man of that name lived in Hanover, Morris County, but Mrs. Ellis Cook did not answer the descriptions. For a long time all the inquiries would lead right back to the Ellis Cook in Morris County. At last another trail was found which led them to an Ellis Cook in Vermont, whose wife proved to be the long-sought-for sister. Meanwhile the weal by woman in England died, and her property went into the English Treasury until an heir could be found for it. A lawyer in this country undertook to get it for the Vermont family at his own expense, and in case of success he was to have half of all that was obtained. I am told that for ten or twelve years he had done nothing else but trace out this thing; perfecting the claim of his client to the property, and at last, with incredible pains he has secured his end, and has paid to the heirs their portion of the property. One of these heirs he found at the West, a humble cobbler, whose share was said to be some sixteen thousand dollars. The poor man was all taken aback with his good fortune, and told the lawyer that I did not know what to do with so much money, a difficulty which has acute gentleman met by advising him to give each of his boys a thousand dollars, and to invest the balance for his own benefit.

The Latest Phase of Northern Democracy.

The Douglas Democrats—we must now making a tremendous noise about "popular sovereignty," and professing eternal opposition to the administration and to pro slavery democracy. But the people will probably learn when another national contest comes round,—if it is not previously seen—that these demonstrations are mostly for buncombe, so far as any *principle* is concerned. It is to gain votes, and it possible to defeat the Republican party in some of the northern States, that these gentlemen ostensibly cut loose from the southern democracy. That they are far from intending to do so in reality may be safely believed when we consider that they can never get hold of the national spoils, or install themselves in the comfortable Collectorships, post offices, Consul-Generalships, Fishery Commissions, and other attractive Federal berths upon which their hungry eyes are fastened, without the essential aid and assistance of these same southern pro-slavery democrats.—They now pretend to be sick of the pro-slavery rule—but if they are so, it is only because life is thrown then into a minority at the north, by alienating the masses of the people. If they can regain some portion of power in the free States by apparently repudiating a few of the more obnoxious ideas and schemes of the Southern leaders, they will be found (judging from precedents) as ready as ever to follow those leaders again, whenever it is necessary in order to secure the federal spoils, or as soon as they shall be able to regain a little party strength at the North by their half show of repentance. According to the idea of the old distich, (perhaps the words are not precisely quoted)—

"When the Devil was sick, the Devil a saint would be,
When the Devil got well, the Devil a saint was he!"

We have seen something of the anti slavery professions of these gentlemen before. The Augusta Age, which is now the leading organ of the Douglas sizzlers, was apparently among the most indignant opponents of the repeal of the Missouri restriction, in 1854—but in 1856 it was found battling without any reserve for the men and the party who perpetrated that outrage—and even now, the same Age, with the whole Douglas faction at its back, *sustains and defends the enormity*. Further yet—the Bath Times, another leading Douglas organ, distinctly *denies that it has any quarrel whatever with the doctrines of the Dred Scott decision*, but on the contrary considers that decision a VERY ADMIRABLE DOCUMENT—and we presume the Douglas organs generally will no more deny the soundness of the Dred Scott doctrines than they are denied by Mr. Douglas himself.

Let the people beware, then, of the professed opposition of these men to the southern democracy. The opposition is only temporary and in name. There is no dependence to be placed upon the counterfeit free soilism of men who sustain the overthrow of the Missouri Compromise, and who consider the Dred Scott opinions to be "admirable." Nor can there be any reliance upon the anti-slavery profession of men who acknowledge (as in the case of the Augusta Age) that ten years ago they believed in the Wilmot Proviso, and were in favor of prohibiting slavery in the Territories—but who now declare, with Douglas, that that proviso was utterly unconstitutional, and are now perfectly willing to permit the first hundred or thousand squatters in a territory to fix slavery upon such territory forever—who also (like the Age) acknowledge that the Republican doctrine of SLAVERY PROHIBITION IN ALL TERRITORIES OF THIS UNION was enunciated by Thomas Jefferson, but who nevertheless now repudiate that doctrine at the bidding of the pro-slavery faction, and sustain its very antipodes. We say the anti-slavery professions of such papers and politicians are of little worth,—notwithstanding they may make a great noise about their repudiation of the present administration. That is a personal and factional feud, carried on mainly to gain the ascendancy in the party—the only earnestness it otherwise has being the desire to gain some votes by the movement.

If the people would have the cause of freedom maintain what it has gained, and advance to yet other victories, they must sustain the Republican party—for that is the only political organization which is uncompromisingly in favor of freedom in the Territories, and utterly opposed to the establishment or protection of slavery in our national domain IN ANY WAY OR BY ANY AUTHORITY WHATEVER.

Hogs and the opera are all the rage at Cincinnati.

Various Items.

HONOUR AND CREDIT.—One of our eminent lawyers of Irish descent was engaged some time since to defend an Irishman who had been charged with theft. Assuming the prerogative of his position, the counsel in a private interview with his client said to him, "Now, Patrick, as I am to defend you, I want you to tell me frankly whether you are guilty or not. Did you steal the goods?" "Faith, then," says Pat, "I s'pose I must tell you. Is' truth, I did state 'em!" "Then you ought to be ashamed of yourself to come here and disgrace your country by stealing!" said the honest counsel. "In truth, sir, maybe I ought; but, then, if I didn't stale, you wouldn't have the honor and credit of getting me off!"

BAD MEMORY.—"Mary, my love, do you remember the text of the morning?"

Mary—"No, Pa, I never can remember the text, I've such a bad memory."

Mother—"By the way, did you notice Susan Brown?"

Mary—"O, yes; what a fright! She had on her last year's bonnet done up, a pea-green silk, a black lace mantilla, brown boots, an imitation Honiton collar, a lava bracelet, her old ear-rings, and such a fan! O, my!"

Mother—"Well, my dear, your memory is certainly *bad*."

WAXED ENDS.—In one of the schools of New York, last week, a mischievous urchin took an opportunity to deposit soft wax on the benches of all the boys, and on the chair of the teacher. It wasn't long before the school-room was as full of "waxed-ends" as a shoemaker's shop.

SEMATIMO SHORTER.—"The candles you sold me last night were very bad," said Scott to a tallow chandler.

"Indeed, sir," said he, "I am very sorry for that."

"Yes, sir; do you know that they burnt to the middle and then wouldn't burn any longer."

"You surprise me; what, sir, did they go out?"

"No, sir."

"What then?"

"They burnt shorter!"

One of the guests of a late brilliant party in Washington city, a Mrs. P——, of New York, is said to have worn gems worth fully $100,000, and several others were decked with fortunes in this attractive shape.

Thirteen of the Baltimore "Babes" and "Blood Tubs," arrested and tried for murder, have been discharged. It seems to be a difficult thing to find in Baltimore an honest and straightforward jury who are not afraid of these murderous "Rosebuds" and "Babes" who are nightly in the habit of knocking down inoffensive people in the streets, and often shooting them.

The Western Episcopalian says that of forty-three Bishops of the Protestant Episcopal church consecrated during the last thirty years, only five have been removed by death. The presiding Bishop, Dr. Brownwell, is now in the fortieth year of his Episcopate. Bishop Meade, the next in seniority, was consecrated in 1829.

A young man in Troy wrote to Horace Greely requesting his autograph, and received the following in reply:

"Young man, you can be in better business than in sending for anybody's autograph."

H. GREELEY.

The following from the Bath Times, is suited to several merchants:

We regret that we cannot publish all the well meant and kindly intentioned communications which we receive. We have not time to re-write and prepare for the printer imperfectly written articles, and should we publish some which we receive without revising, we should do much injury to the writers. When a correspondent finds by long waiting that his favors do not appear he is at liberty to infer that we discover an unfitness which we had no time to correct. To young writers let us say in all good fellowship, don't be too anxious to mount on poetical stilts.

A CHANCE FOR MATRIMONY OUT SOUTH.—A steamboat (says the New Orleans Delta) arrived, a few days ago, at our wharf, from the Red river, with a large party of gentlemen and ladies from the northwestern parishes, who are visiting our city for pleasure and amusement. Among them are eight widows, whose aggregate wealth amounted to five millions of dollars. One of the gold ladies is the owner of six hundred slaves, and the others make a crop of three thousand bales of cotton.

"And you never take a bath at sea?" "Well, how can I, when Doctor Hall says you should never take a bath within three hours of eating. You know, with my appetite, that I can't go more than two hours without replenishing."

ANOTHER SUSPENSION BRIDGE FALLEN.—The Lewiston Advertiser says:

We learn that the chain bridge across the river at Kingfield Village broke down on Saturday last. Mr. Joshua Simmons was crossing at the time with a four-ox team loaded with logs. The chain broke on the lower side precipitating Mr. S. with his team upon the ice some twelve feet below, but fortunately he escaped without any injury to himself or team. The accident was occasioned by the great weight of snow and ice, and also by a flaw in a link of the chain near the south wall outside of the tower.

JOB WORK.—We are prepared to execute job printing of all kinds, in the latest style and at as cheap rates as at any office in the State. Our friends who are in want of Cards, Bill Heads, Shop Bills, Blanks, Circulars or any thing of the kind, will we hope bear us in mind.

The 'Old Settlers' meeting was adjourned till this evening (Saturday) at 7½ o'clock at the Police Court Room.

WARM WARRANT.—Before the Police Court, yesterday, Bartholomew Barrows was brought up by the Police, for a brutal assault and battery upon his wife. The woman was beaten very severely on her head and face—the weapon used being a heavy pair of boots with which her husband struck her. The Court imposed a fine of $10 and costs and ordered the defendant to give bail in $100 to keep the peace three months. The order was complied with and the fine paid.

THE ROBBERY CASE.—Before the Police Court yesterday, Michael Mangan was examined on a charge of robbing Levi H. Bagley of Milo, as reported in our last.

Bagley testified that he was in Mangan's shop on Exchange Street, on Tuesday evening. Had seven $10 bills and twelve or fourteen $5 bills. Drank some liquor while there.—Was served by Mangan, he thought. The liquor had an unusually stupefying effect upon him. After going out he missed the money above named; but had a $20 gold piece also a $1 gold piece left which were in another part of his pocket book. The gold pieces he afterwards lost, and he thought they were taken by two young men who were going to show him the way to Walker's office.

Officer Bicknell testified that he arrested Mangan, who denied the robbery, and did not want to be searched; but after some talk, he took out $48 in bills, which he said was part of the money which came from Bagley—that he did not rob him—but that John O'Mara did, and they immediately divided the money, taking $75 each.

Walker also testified to the confession.

John L. O'Mara was called, and denied that he robbed Bagley. Was in Mangan's shop, and saw Bagley there. Saw him drink several times.

Deputy Marshal Adams testified that he had conversation in the watch-house with Mangan and O'Mara in separate cells. O'Mara denied knowing anything about the robbery. Mangan insisted that he (O'Mara) took the money.

Mr. Bicknell said he arrested and searched O'Mara within half an hour after Mangan's statement, and found but eight cents upon him.

Walker and Bicknell both testified that no promises or inducements were held out to Mangan, to get a confession.

In view of all the testimony his Honor Judge Pratt, held Mangan in $700 bonds to answer at the August term of the Supreme Court.

O'Mara is young and bright looking—not over 18 or 20 years old we should judge—and no complaint seems to have been made against him.

THE MT. VERNON FUND.—The Ellsworth American learns that the ladies of Trenton have collected and paid over to the County manager the sum of sixty-eight dollars towards the Mt. Vernon fund.

The amount of $86 is acknowledged thro' the Belfast Journal, from the ladies of Searsport, collected by the energetic aid of Mrs. Simonton.

"KICK."—The citizens of Thomaston held a town meeting, and voted by a decided majority in favor of a new county, with Thomaston for the shire town recently.

A resolve has passed the Legislature appropriating $232 to pay wages, sickness and funeral expenses of the late Andrew Dyer, of Dedham, and granting the same to the widow.

Albert Hayford, Esq., who was elected Representative from the Cherryfield District, on the 27th ult., had a plurality of four votes—Ezekiel Dyer, Esq., was the Democratic candidate.

MOLASSES OVERBOARD.—On Friday last, while some men in the employ of H. A. Howes & Co., were engaged in hauling goods on the ice from a schooner in the bay, they unfortunately came upon a thin spot, and the hogshead of molasses on the sled broke through and sunk to the bottom. It was got out on the following day, however, some the worse for the accident.—*Belfast Journal*.

THE FIRST SETTLEMENT OF BANGOR.—Prof. Shepard in his Thanksgiving Sermon, placed the first settlement of this place at ninety years ago. He says:

"The first settler in what is now Bangor, was Stephen Boswell, who with his family, here passed the winter of 1769–70. Two other families followed in the spring. In the summer of 1771 five families more moved into the place, of the names of Howard, Crosby, Dennett and Smart. In 1772 there were twelve families in the settlement. In March 1782, seventeen years from the beginning of the place, a vote was passed to build a meeting house, 40 by 36. This however was a good purpose not accomplished. The population at this time must have been very small, inasmuch as in 1790, thirteen years later, in numbered only 277."

A despatch to Palmer's News Room states that barque Phœbe Buckman, of Yarmouth, Me., from Xibara for Hamburg, was totally lost near Xibara, no date or other particulars given.—*Boston Daily Advertiser*.

SHIPBUILDING IN THE BATH DISTRICT.—The Bath Times gives a list of vessels built in that District during the last year—from which we take the following Recapitulation:

16 Ships,	tonnage	14,322
2 Barks,	"	880
1 Brig,	"	308
6 Schooners,	"	367

THE SHOE BUSINESS.—As indicating the extent to which this business has already grown in Lewiston, Auburn and towns in that vicinity, the Lewiston Advocate states that no less than 900 cases of shoes were sent west by railroad from the Auburn station, during the month of January just passed. The cases usually contain 60 pairs each—although some have 120 pairs of children's shoes. Not less than 50,000 pairs of shoes, therefore were sent away from that station during a single month—nearly all of which went to Massachusetts for sale or shipment. Large quantities were also sent eastward to places in this State.

CHANGE OF POSTMASTER.—Josiah P. Churchill has been appointed postmaster at North New Portland, in place of A. A. Knowles, Esq., removed out of the State.

A PROSPEROUS LIFE INSURANCE CO.—The annual statement of the Mutual Benefit Life Insurance Co., just issued to its policy holders, exhibits a result that must be satisfactory to all interested. Its accumulated assets have reached the large sum of $3,001,929 91, after paying to families and creditors for deaths $1,947,499 55, of which $242 169 00 was paid on claims in 1858 alone; and all this is in addition to the extraordinary sum of $1,161,527 26 *returned to policy holders in dividends*. And this sum does not include a current annual dividend of *forty per cent* announced in this report on all policies in force issued prior to January 1858.—*Boston Journal*.

Benj. Plummer, Agent for the above company, has issued a large number of policies in this city and vicinity, and the list is we understand, constantly increasing.

THE MUSE ARTIST AROUSED.—We copy from the Aroostook Pioneer the following card from Mr. W. D. Delavan, the artist who painted himself upon the public as a mute.—It seems to be a lame affair at the best, but we give it for what it is worth:

Mr. Editor:—Allow me, through the medium of your paper, to explain my conduct, and I shall endeavor to do so as briefly as I can and still try and satisfy the readers of your paper, and the public, at large, as to my motives for what I have done. I shall be as candid as the subject will allow, and I will reserve *nothing* that I can think of, except what will affect others, who I think should not bear any of my faults.

For over eight years I have spoken to but three persons, and if any person will think for a moment how much self-denial, self-control and perseverance a man must have and use in such a case, he must have a motive and an object to gain, commensurate to it to do as I have done; and they will also see that the circumstances and influences that led to the above must be of great importance to the public, or it was entirely of a private nature. It is the latter; still I believe my friends, whom I have made in the last eight years and the public generally, have a right to something of an explanation for my conduct.

If anybody will go in society for one day, and not notice anything when spoken to, and speak to no one for the whole time, and then multiply it by eight years, he will understand that no mere mercenary calculation or motive will make him do so. Those who know me I am sure will not accuse me of it.

Outside of my deceiving people, I do not think I have ever done a willfully mean action, for I knew when I resumed talking, after my object was gained, that very action of mine would be brought up against me, so I have tried to act as a gentleman, and never tried to deceive a person, only so far as was necessary under the circumstances. I have never been in society much, for the reason that people, thinking me a deaf mute, would say things they would not otherwise, and when they knew I *could* hear and talk they would think that I was worse than I really believe I am.

If I was ashamed of what I had and have done, or thought that the object I have worked for was not equal to my course of action, I think (if I have one tenth the brain they say I have,) I could have chosen some course by which I could have received talking, *without* any person knowing my former actions—I could have got cured, or gradually regained my speech, but I have not, to my knowledge, done any one a willful wrong, so I am not ashamed to look any one in the face, and I do not think, beyond my deceiving people as to what I really was, that I have injured any one. If I have done so I am sorry.

I can say but little more. I am sure if any one will think over what I have said, they will see that I have had some extra motive to push me on the course I have pursued, and I can only hope they will be as lenient as they can, and think over what I have said, before they come to any conclusions against or for me; and those of my acquaintances and friends, both here and in other parts of the Union, (for I have been in every State except California,) who take or did take any interest in me and mine, will come and see me, I will answer any and all questions they may put to me, as candidly as I can.

I have been thus brief, because there are many things I would not like to say in this communication, that I would not mind in a circle of friends, and, as I said before, if any one who takes an interest in it, will take the trouble to question me I will do all I can to satisfy them that I have a sufficient cause for my actions for the last eight years.

WILLIAM D. DELAVAN.

WHEELER & LYNDE.

To the Public.

I have one word to say in reply to Mr Waterman's card, published in the Whig and Courier, of the 9th inst. The contract between us will, if published, show the terms. Mr. W. states that the contract does not mention the size of the figures. I say that, by it, the figures were to be of such sizes and quality as I mentioned in my card of Feb 5th. He intimates that I have failed to supply him with figures, and have thereby violated the contract. I say, that I have always had all the figures that he ever called for, with one exception, and then the circumstances were such that the contract, by any impartial person, would not be considered as broken by myself.—He had been in the habit of calling for 100 figures at a time, except the last time, and then he called for 106.—The 500 figures were 1½ inch, and the six over time inch, all silver plated. The exception, when I had not the figures on hand, was in the case of two inch silver plated, which were to be made to order. The number of these figures in the order was nineteen, and he has never called for them, although they have been prepared for him. He says, that he has used just 531 figures of all kinds, and has bought of me 506. He does not state how many figures he has on hand that he bought of me, nor how many brass, and how many galvanized, figures he has used, since I notified him that I was prepared to furnish him with figures.

It is true, I was not in total figures, until the numbering was completed, for a less price than he charged for putting them on. I have not done so; indeed I have not sold but five figures between the time he commenced numbering, up to the date of my card of Feb 9, and then I sold for the same price he charged, 25 cents each, and they were 1½ inch silver plated figures. I wish the contract to be published, that the public may judge for themselves between us.

I believe it is esteemed good policy for citizens to patronize their own people in preference to strangers, when they can do so, and to so expend their money that their own community may have the benefit of it, rather than that it should go abroad. We have among us citizens, tax payers, good mechanics, capable of doing their work as well as any strangers who may come among us.—Shall we leave them, and give our money to others in whom we have no interest, and who have interest in us except so far as they can get money out of us?

I think we have now in the city men as well qualified to number our streets as any other persons, who need the support of our own citizens, and I do not think the Aldermen of our city would have countenanced a stranger, to their detriment, and they know the fact. With in the last few days Mr Williamson has been connected with me in measuring land and numbering the houses, and has given good satisfaction.

For myself I desire nothing more than justice in this matter. I shall defend myself against the attacks of one who revels not only for our money, I am a mechanic and tax payer. I have been unfortunate. I desire to live and pay my rents and other expenses. I ask not for charity,—I ask for employment, and especially in the winter, when business is more dull than at other seasons. I have the facilities, and I can afford to, and do number houses at less cost than any one else has done, even according to Mr Waterman's statement. My prices are—

For putting on 1½ inch Double Silver Plate, each, 20 cts.
" 2 inch " " " 30 cts.
White Metal, 15 cts.
Brass, 10 cts.

and will furnish the number plates, according to the style and number of the figures. To those who prefer to put on their own figures I will sell 1½ inch figures double plate, for twelve cents each, and all others in proportion.

I have told Mr Waterman, from the beginning, that I could furnish him all the figures that he wished, and still will continue to do so.

To the Citizens of Bangor.

CITY OF BANGOR January, 1859.

MR. LEWIS WATERMAN, proposes to number the Streets of our city upon a plan which will mainly obviate the necessity of renumbering afterwards, on account of the erection of new buildings, as each street is to be carefully measured, and the numbers to be arranged with reference to such probable new erections. He comes with recommendations from other cities and towns where he has heretofore performed similar services, which are satisfactory to us. It is hoped that the citizens of Bangor will avail themselves of this opportunity for effecting the proposed improvement, the expense being small.

Mr Bodlette said that the American policy rested on three foundations: 1st that under no circumstances can Cuba be transferred to any other European power. 2d, that so long as it belongs to Spain we will not seek to wrest it from her. 3d that whenever we can acquire Cuba by the consent of Spain and of the people of the island by purchase and cession.

HOUSE.—Mr Searing of N. Y., rising to a question of privilege, branded as a course and conduct unbecoming a gentleman under the assertion of a correspondent of the N. Y. Times, that paint bought for the Brooklyn Navy Yard was used to paint his dwelling house, and called on the chairman of the investigating committee to state whether such a charge had been addressed.

Mr Stratton of O., stated that no testimony had been submitted involving Mr. Searing in any wrong whatever. The testimony would be submitted early next week.

The House resumed the consideration of the Oregon bill.

Mr Zollicoffer opposed on account of the anti-slavery clause and insufficiency of the population.

Mr Cummins was ready to admit both Kansas and Oregon with such constitutions as the people may adopt.

Mr Hamond his objections lay in the provision of Oregon itself, which provides for excluding free colored people from the State.

Mr Hill opposed the admission on account of the sparsity of population and alien suffrage.

Mr H Cochran opposed it because it would be a palpable infraction of the rule recognized in the case of Kansas, because it would be unjust to the larger and older States with respect to congressional representation, and because of the exclusion of the free colored race.

Mr Harper argued in favor of admission. Mr Cockerill in the arguments touching the black race of the population, he reminded Republicans of their vote for the Topeka constitution when Kansas had less than half the population in Oregon now has.

Mr Case thought there were objectionable features in the Oregon constitution and had made up his mind to vote for it as the best thing that can be done under the entire administration which secures and disgraces the country.

Mr Brigham opposed the bill on account of the alien clause in the constitution and that with reference to free negroes and mulattoes.

Mr English gave notice of an amendment providing that hereafter no territory shall be admitted as a State unless it is previously ascertained that it has sufficient population for a Representative in Congress, when a constitution may be formed and the State admitted, with or without slavery, as the constitution may prescribe.

Mr Sawtelle advocated the bill.

Mr Davis of Miss., was in favor of the bill.

Mr Gilman of Me., would be compelled to vote against it principally on the ground of the free negro clause in the constitution. Adjourned.

Ordered, That the Committee on the Judiciary inquire into the expediency of so amending the first section of the 59th chapter of the Revised Statutes, as to prohibit the intermarriage of persons within the degree of consanguinity of first cousins.

Petitions presented and referred.—Of Geo. W Dyer and others, for the State to build a road across the Indian township; remonstrance of Henry McGilvery and 66 others, citizens of Stockton, against the dismemberment of said County and the formation of the County of Knox.

LOOK OUT FOR YOUR ENVELOPES.—We learn that two coals were stolen from the entry of the St. Lawrence House on Wednesday evening. In the pocket of one of them was a five dollar bill and a number of papers.—*Portland Advertiser.*

HOUSE BURGLARED—MAN SHOT.—On Wednesday night about 11 o'clock four men attempted to forcibly enter the house No 4 Portland street, occupied by Mr. Frederick Wilson. They first asked for admittance which was refused them. They then commenced battering in the door. Finding they were determined on forcing an entrance, Mr. Wilson provided himself with a pistol, and after they had stove in two panels of the door he discharged it among them. The shot took effect in the body of one of them by the name of Alfred S. Moor. The wounded man was decamp. After leaving the house Moor walked a short distance, when it was found necessary to obtain a carriage, in which he was conveyed to his home.

Dr. Lord was called when it was found that he had narrowly escaped a dangerous wound. The ball struck him in the abdomen, entering beneath the skin but not entering the muscle. It then made a circuit around the left side until it reached nearly to the spine whence it was extracted. There may have been similar cases, but we never have heard of them.—*Portland Adv.*

To the Honorable Legislature of the State of Maine

THE undersigned represent that they are the owners of a certain steam saw mill in the town of Brewer, on the east side of the Penobscot river, and of certain land measuring about one hundred and twelve rods on the shore of said river, above, and in the immediate vicinity of certain point, called Brackett's Point—that it is very important to them in order to protect their property and carry on their business successfully, to extend from their said land two wharves, one from their upper and the other from their lower line, not exceeding fifty feet beyond low water mark into said river, and to erect a pier about twenty five feet square between and in line with them—that such wharves and pier may be so built as not to interfere with the common navigation of the river but on the other hand to be of more benefit than injury to navigation.—They, therefore, pray that they may be authorized by your Honorable bodies to erect such wharves and pier into the Penobscot river as aforesaid, not exceeding fifty feet beyond low water mark, and as in duty bound will ever pray.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers those bound to California are cautioned to buy Tickets at the only authorized Agency of the United States Mail Line as below.

By order of the Post master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are carried at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only regular entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *fifty hours entirely by daylight*, thus avoiding the great exposure at night in open boats to fever and ague, and 250 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that passengers at C. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mail and passengers, thus securing passengers by the Mail Line a sure and short passage with the greatest comfort and safety to the city.

Tickets must be procured by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained at the *only authorized Agent* for the U. LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

Is it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? Is it a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when this water-proof is remembered. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

BEE.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hives* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable management of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Acidulous Counterfeits, Removals, Transfers or Alterations.

HAVING purchased the Patent for the sole and exclusive right to manufacture and sell this Chemical Paper in America, invented and patented in England by HENRY GUYOT, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, automatic and skilled photographers, 333 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—$6 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$26 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$26 for 1000 sheets
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts. per lb
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the ink and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France and other foreign countries. Caveats, Specifications Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessary of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I resume Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. THOS. EWBANK,
Commissioner of Patents.

"I have no hesitation in claiming invention that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents

"Boston February 8 1858

Mr R H Eddy has made for me THIRTEEN application, all but one of which patents have been granted, and that is now pending. Such unmistakable proofs of great talent and ability on his part induce me to recommend all inventors to apply to him to procure their patents, for they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17 h, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on rejected applications, SIXTEEN APPEALS. EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY
